Illinois: December 4th - 5th, 2024

Arctic Front Brings Bursts of Snow, Strong Winds, and Crashing Temps December 4th

Start: 4 - 6 PM December 4th **End:** 9 - 11 PM December 4th

Mixed rain and snow showers first arrived 4 - 6 PM December 4th. These showers were briefly intense, allowing for localized scattered coatings of snow on colder surfaces through sunset. Then, hit-or-miss bursts of snow followed through the evening. Some of these bursts were squall-like, resulting in quick cover of all surfaces, reduced visibility, and very strong wind gusts locally up to 55 - 60 mph. All activity exited 9 - 11 PM. Through the event, temperatures plummeted from near 40 degrees to the teens.
